THE OTHER SIDE

Limited Edition/

Inspired by the liminal spaces between reality and the unknown, The Other Side by Leila Jureidini is a bold exploration of art transformed into woven form. In collaboration with Iwan Maktabi, Jureidini's evocative designs transcend their canvas origins, becoming limited-edition tapestries and carpets crafted with traditional techniques.

With its striking interplay of color, texture, and depth, the collection blurs boundaries between art and interior, inviting viewers to step into a realm where the familiar dissolves into the surreal.
